- For a Greener Future, one HOP at a time -

HOPPY'S VIEW ON SUSTAINABLE DEVELOPMENT

"Take urgent action to combat climate change and its impacts" (one of the Tagline in the **United Nations' Sustainable Development Goals**.)

Statistically speaking, 2019 was one of the warmest year on record, bringing massive wildfires, hurricanes, floods and other climate disasters across continents. Albeit followed by a drastic drop in human activities in 2020 due to the COVID-19 crisis, the resulting 6 percent drop in emissions projected for 2020 still falls short, and emissions are expected to rise as restrictions are lifted. If the world does not act now, and forcefully, the catastrophic effects of climate change will be far greater than the current pandemic.

Total aggregate greenhouse gas emissions of developed and developing countries (gigatons of equivalent CO_2)

	2000	2005	2010	2015	2018

Legend:
— Developed countries and economies in transition (Annex I)
— Developing countries (Non-Annex I)

HOPPY'S VIEW ON SUSTAINABLE DEVELOPMENT

Based on the Global Sustainability Survey in 2020:

○ Sadly, the concept of Sustainable Development Goals is not yet well know, the average awareness score globally is just under 50%.

○ 98% of respondents state that they know the term "sustainability" but they are not familiar with the SDG framework and concept.

○ Sustainable Development Goals #13 - Climate Action voted by individual, private, political and education section which required the **most urgent need for action.**

HOPPY'S VISION

HOPPY hopes to become the Most Influential Sustainability-driven Community, aiming to build Awareness and make impactful Actions in contributing towards the 2030 United Nations' Sustainable Development Goals.

HOPPY'S MISSION

The climate crisis is bad news: the world is getting warmer and greehouse gas emissions are still rising despite decades of warnings about the dire consequences. But a silver of hope is that we can act – right now – in ways that can start to address the problem.

With the power of community in the blockchain space and the current market demand for memes. HOPPY believes that the time to give back to the environment is now.

HOPPY'S FEATURES

MEME - CENTRIC

Riding on the current demand for meme crytocurrencies. HOPPY aims to further spread the importance of Green Energy for the future of blockchains.

HOPPY JUMPSTART (HOPPY MEME LAUNCHPAD)

Startups with the necessary funding and support to kick start their Green Project and Meme in the efficient way possible. And helping university students or start-ups with Green initiatives.
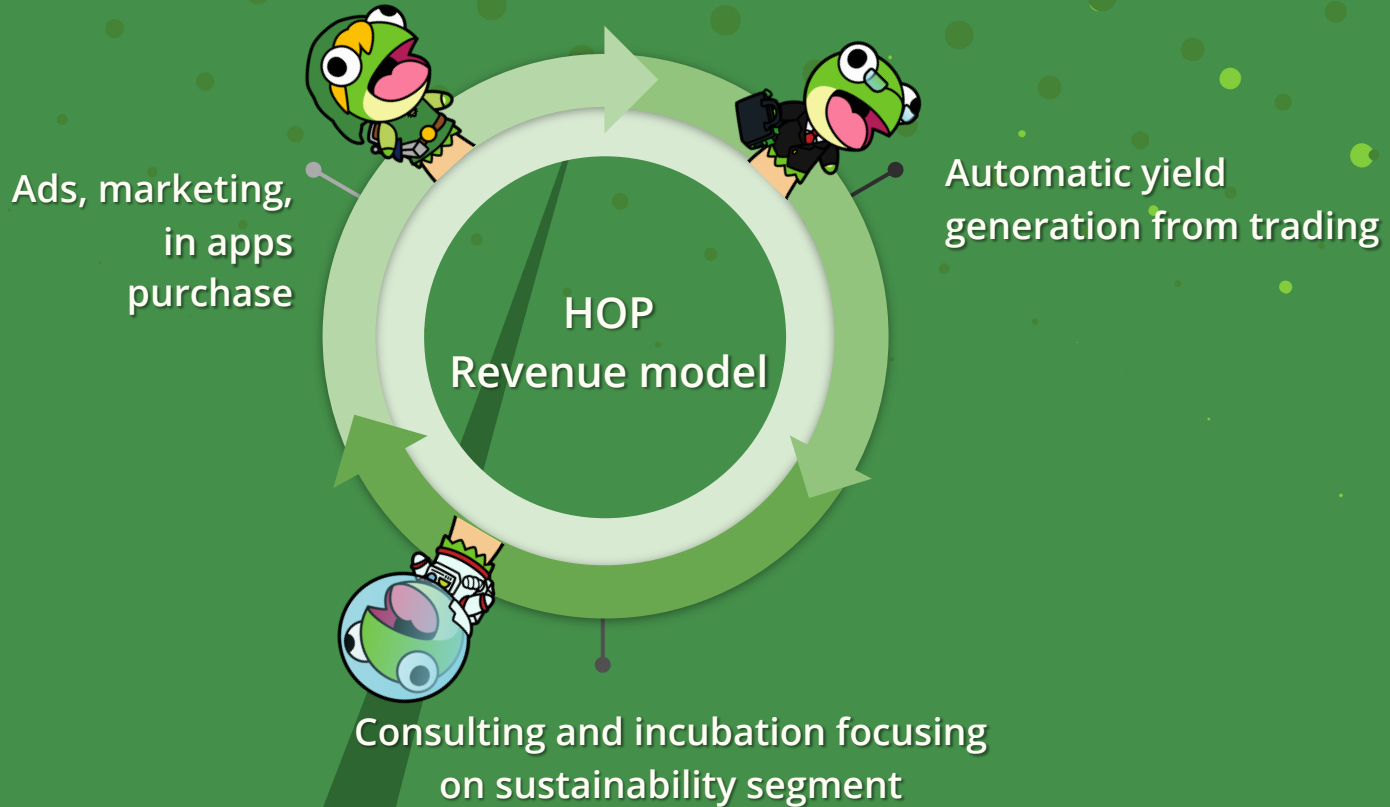

GIVE HOPPY A GREEN HOME

Games designed to promote adoption of sustainable lifestyles and awareness while having fun!

HOPPY GIVES BACK

Donation to charitable organisation or foundations dedicated to protecting and supporting the environment.

REVENUE MODEL

Ads, marketing, in apps purchase

Automatic yield generation from trading

HOPPY MEME LAUNCHPAD

HOPPY Meme LaunchPad is the first decentralized IDO platform. The platform opens up to investors not only incredible opportunities for earnings but also based on the current demand of the economy. It uses the popularity of memes to spread the importance of maintaining the environment, as well as creating a more promising green future for the crypto industry.
WHY HOPPY

The HOPPY Meme launcher will offer a complete set of startup tools, including marketing, product fit, development, and we have a team of consultants who work with an experienced startup team - Oxbull. An investor who owns HOP tokens provides you with a gateway to receive funds to participate in IDO. By launching IDO on HOPPY, you will meet thousands of new potential buyers from our ecosystem.
